### *Energy Saving*

**EGLO CEILING FANS ARE  
ENERGY EFFICIENT**

Our fans allow for more sustainable electricity usage, by working with existing air conditioning to reduce your energy and environmental footprint.

### *Budget Friendly*

**EGLO CEILING FANS CAN  
HELP YOU SAVE MONEY**

Our ceiling fans are inexpensive to operate, providing a cost-effective cooling solution year-round. Enjoy a comfortable indoor environment without overspending!

\*Fan must be installed in appropriately covered outdoor locations where the fan is fully undercover, and a minimum of 1.5m distance from the edge of the blades to the edge of the roof. This fan is not waterproof. In some more tropical areas of Australia, it is suggested you increase the distance from the fan to the edge of the roof for maximum protection.
